Discussion

Andy wanted to get the Site IHSS coverage. I responded that the Integrated Sitewide Environmental Data System (ISEDS) was placed on the Internet in May. However, I had not notified the potential users due to the lack of GIS coverages and those that are on there are not updated. I then informed him that we would have the updated GIS coverages in place on ISEDS by June 30, 2003 and the latest by July 9, 2003.

Andy wanted to know when he could expect the groundwater data from SWD as I had stated in my regulatory contact records of 02-05-03 that we could provide the groundwater by the end of March. I stated that we could try to get the groundwater data set to him by September 2003 depending on our workload. Andy said this was all right with him and that we would continue to work together to provide CDPHE with the requested data.

Note: This regulatory contact record is a follow up to my regulatory contact records of 02-05-03, 10-8-02, 09-11-02, 09-06-02, 7-31-02, 05-21-02, and 02-26-02.
